

## Qualities of a Leader

My very dear xx,

I heard of the difficulties you are facing in the center. It is very important for a leader to have humility, kindness, be humble in manner, always express appreciation: we are serving others, so always be generous in attitude towards others, this is so important. As a leader and director this way we create a lot of merit as well. And we shouldn't see/do this as black politics - for something in return for self. This is naturally what we should do to be in harmony.

With much love and prayer,  
Lama Zopa
