Hearing the tragic news of the dissolution of the physical form of Kyabje Lama Zopa Rinpoche, the supreme elucidator of the Buddha's teachings, into the Dharmadhātu - the realm of phenomena, the Loselling Tulku Association extends its heartfelt sorrow and obeisance.

As a Bodhisattva emanation who has come to benefit others, Rinpoche has made remarkable contributions to the upholding, sustenance, and furthering of the Buddhadharma by the means of teaching and practice, as advised by His Holiness the 14th Dalai Lama. In particular, Rinpoche employed the most skilful means, including bestowing empowerments, transmissions, conferring pith instructions, and so forth, in performing spiritual activities and spread the Buddhadharma to the West. To the community of Tibetans in exile, Rinpoche shouldered great responsibilities and extended financial support to various monasteries and organizations.

While remembering all the profound and extensive activities performed by Rinpoche that are exemplary by all measures, we extend deep condolences to Rinpoche's close entourage, disciples and students at the FPMT centers. As you have strived to follow Rinpoche's words and advice, we request you to continue your efforts in fulfilling Rinpoche's aspirations that generate benefit and happiness to the Doctrine and sentient beings in general. Lastly, we pray and hope that an unmistakable reincarnation swiftly returns to protect the beings of the degenerated times and thus continue the noble deeds of the predecessor.
