

Nepal Eye Program Tilganga Eye Centre

Gaushala, Bagmati Bridge, P.O.Box 561, Kathmandu, Nepal Tel: 493684, 493775, Fax: 977-1-474937 email: tec@tilganga.com.np

It is to inform all our well wishers who have been supporting our sight restoration project worldwide that we started providing high quality cataract surgery and training programs in Tibet autonomous region and Amdo (Chinghai) for the last fifteen years. Till today more than six thousand sight restoration surgeries were conducted in patients suffering from cataract in Tibet autonomous region and Amdo (Chinghai) and more than 50 local doctors are trained. We have already established an eye center in Lhasa.

There was need to construct an eye center in Xining, the capital of Amdo in order to provide continuous sustainable quality eye care for people living in areas like Golok, Rekong and Holong. This center will provide not only quality eye care but also training for the local doctors and paramedics.

Rev. Lama Zopa Rimpuche and the FPMT organization is raising funds to built this eye center in Xining to be managed by Tilganga Eye Center. Lama Zopa Rimpuche has been extremely kind in giving us blessing and support for running similar programs in Nepal in the past. We are extremely thankful to him and the FPMT.

Dr. Sanduk Ruit
Medical Director
